

TRAVELING WITH LULAV AND ESROG TO THE UNITED STATES AND CANADA

MEETING WITH BORDER OFFICIALS

To prepare for the Yom Tov travel season, members of the Jewish Community Council met with border officials at ground and airport border crossings to ensure they are properly informed in terms of Arba Minim (Four Species). We also provided them with the dates on which more traffic is expected.

CROSSING THE BORDER WITH ARBA MINIM

People who are traveling with Arba Minim should declare them at the border post. Arba Minim may be brought through the border for **personal use** only from September the 18th to October the 10th. Once these items have been cleared and determined to be free of pests and/or diseases, they will be released. Members of border inspection are sensitive to the handling of these items, and will ensure that the passenger himself opens, unwraps and rewraps the Arba Minim. In order to avoid delays, the Arba Minim should be easily accessible.

AVOID DELAYS

Border officials have asked us to remind all travelers to have their travel documents well prepared and up to date. Non-citizens who are traveling by car with birth certificates and not passports should please ensure to carry the originals or a clear, legible copy. Please be aware that inspectors will process passengers as quickly as they can, but delays could occur with unclear documentation. Passengers traveling in a van with more than eight passengers should proceed to the bus lane.

We take this opportunity to wish you and your families a wonderful Yom Tov!

Yours Sincerely,

Rabbi Saul Emanuel
Executive Director
